Modern Curved Edge White Moulded  
Wiring Accessories

# Modern Curved Edge White Moulded Wiring Accessories

Contactum began life in 1936 and is one of a few remaining manufacturers of electrical wiring accessories and circuit protection products in the UK, and manufacturing still continues today at its factory in Cricklewood, London.

Our products are used widely by Electrical Contractors and Electricians alike in many applications and over the years has met the growing request for new, modern, stylish wiring accessories.

Manufactured in the UK\*, Aspire by Contactum is a slim, modern range of moulded wiring accessories offering a blend of style, choice and functionality. Its inspirational designs cater to all tastes and properties, from the discerning homeowner to commercial property installations.

Aspire is produced using sustainable manufacturing processes, packaging and facilities. Alongside this Contactum is the first in its industry to have had their carbon footprint measured and certified by the Carbon Trust.

Offering an extensive range of switches, sockets, dimmer controllers, media & data units; development of Contactum's enviable eye-catching line of moulded switches and sockets continues apace with the addition of wide rocker 10AX switches and

an upgraded 3.1A USB charging switched sockets; thus ensuring the brand is the first choice for many specifiers and architects across the UK.

Aspire products are manufactured from a high grade thermoset material which has inherent antimicrobial properties making it suitable for kitchens, hospitals, care homes, and nurseries. Complimenting this Part M building regulation solutions are also available as standard.

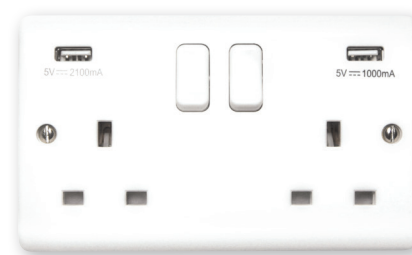

Alongside this all products are offered with a "No Quibble" 25 Year Assurance Warranty\*\* and are supported by Customer Service, Technical Support, Design and Engineering based in our new facilities at Croxley Green, Watford.

\* 95% of total 2014 UK Sales

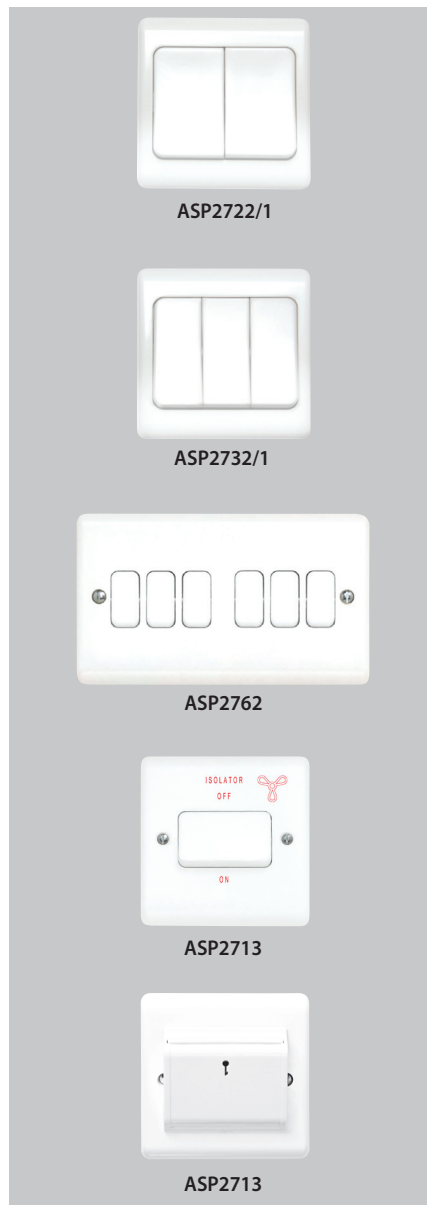

\*\* 3 years for electronic outlets/sockets.  
Terms and conditions apply.

## Features & Benefits

- Manufactured in the UK\*
- 3.1A rated USB Charging Solutions
- Modern slim profile
- 9mm deep front plate
- Extensive range of switches, sockets, dimmer controllers, media & data units
- Complimentary grid switch option
- 10AX rating on light switch range
- Twin earth terminals as standard on 13A twin sockets; clean earth options available
- Double pole switching as standard
- High quality thermoset material providing inherent microbiological properties and resistance to scratching
- Compliant with latest British and European standards including BS1363 and BS EN 60669-1
- CE Approved and marked where applicable
- Part M Building Regulation solutions available
- "No Quibble" 25 Year Assurance Warranty\*\*
